

Drilling Aug 2020 Knaften 300 Gold Zone Working Cross-Section

Gungnir 2020 Holes (KN20-) Highlight Results, 2019 Holes (KN19-) and Highlight Historic Results

** Historic Drill Results: Most of the historic holes were drilled towards the west and north-west, and for simplicity and illustrative purposes only highlight intercepts are shown. The Company has not verified all historic results, and true widths of historic intersections have not been determined at this time.
